Location

- Fort Wayne, Indiana
 - > Magnet Wire birthplace and Wire Capital of North America
 - > Centrally located to Mid-West factories
 - > Nearby FWA Airport
 - > Full-service facility with warehouse and offices

We deliver SOLUTIONS.

WAI History

1982 – Our office opens in Fort Wayne, IN as a subsidiary of Willy Aumann KG, Germany under the name of Aumann North America Inc.

1989 – We are growing and move to a new building with larger office space, show room and warehouse.

2006 – No longer a subsidiary of Aumann GmbH we are now an independent group and work as a manufacturer's representative under the name Aumann Inc.

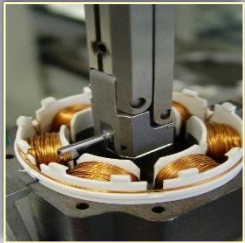

2017 – We change our name to Winding Automation Inc. to better reflect our new role as an independent manufacturer's representative with larger product portfolio.

We deliver SOLUTIONS.

More Options from One Source

Machines and Products

- [Motor Winding Machines](#)
- [Coil Winding Machines](#)
- [Automation Systems](#)
- [Wire Enameling Ovens](#)
- [Wire Tensioners](#)
- [Wire Guide Nozzles](#)
- [Wire Surface Preparation](#)

Services

- Process Development
- Feasibility Tests
- Process Capability Tests
- Sample Production
- Installations
- Training
- Repairs

We deliver SOLUTIONS.

Our Manufacturer Partners

Custom automation systems
for motor and coil production,
wire enameling ovens

Boockmann GmbH

Patented Helicord technology
for wire & cable surface treatment

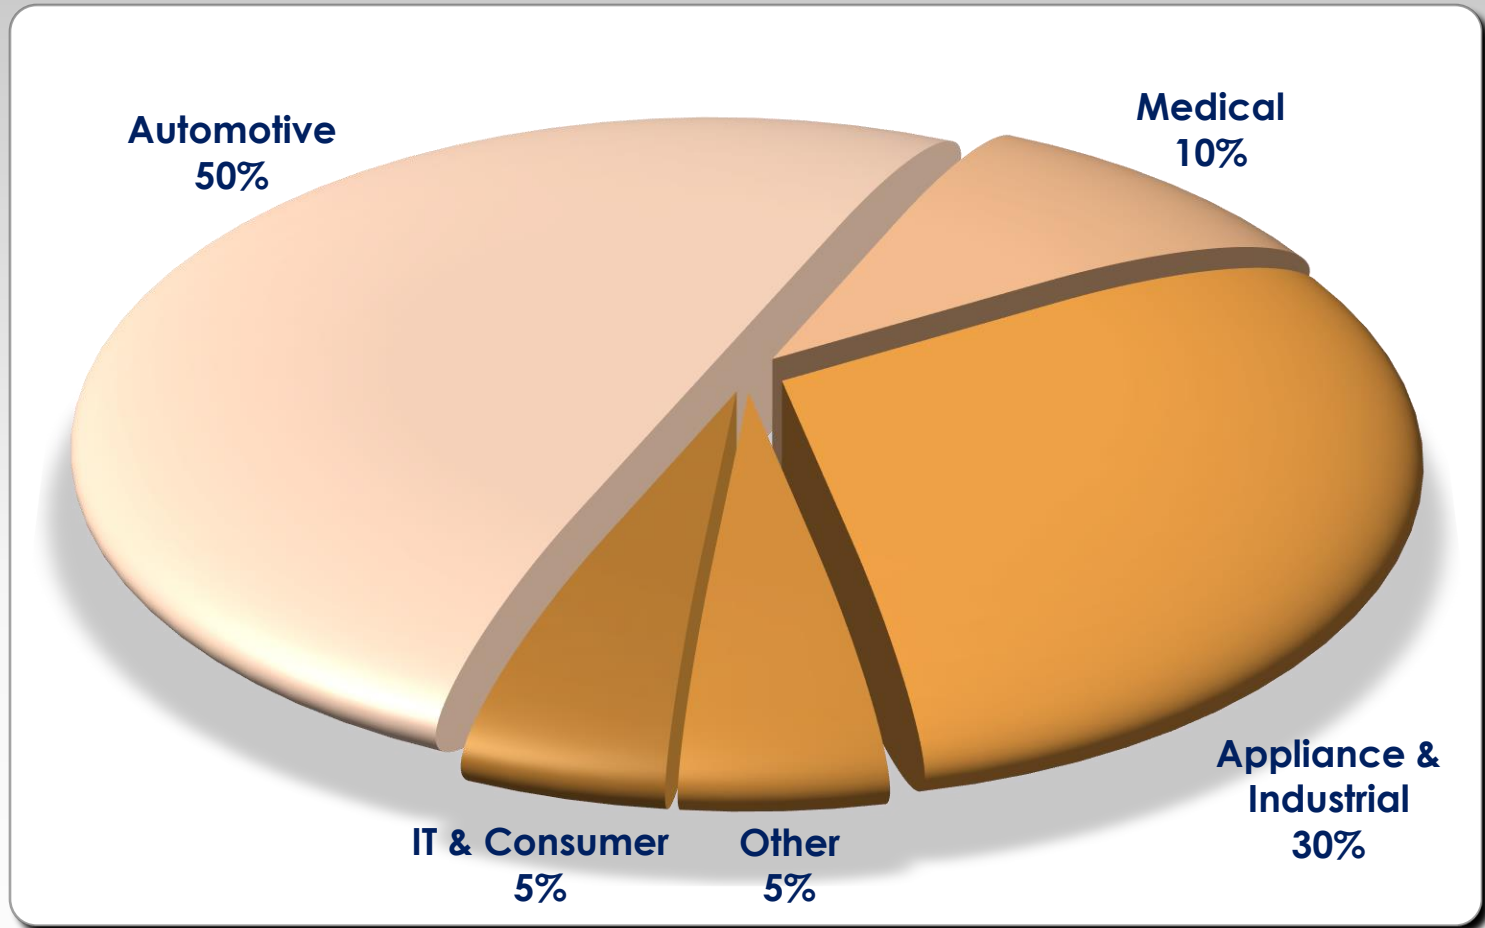

Winding and automation
machines and systems
for motors and coils

We deliver SOLUTIONS.

Industries

We deliver SOLUTIONS.

Our Customers

We deliver SOLUTIONS.

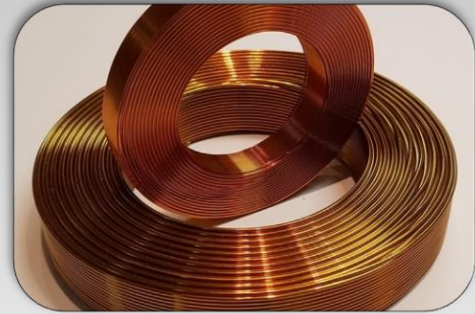

Our Customer Products

HEV & EV Motors

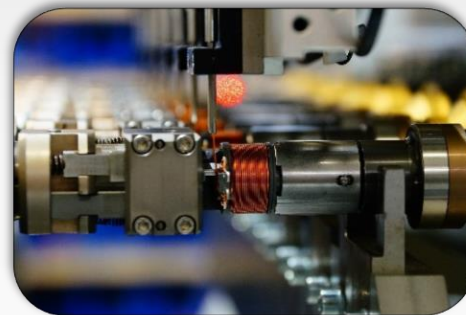

Direct wound Stators

Precision wound and bonded Coils

Ignition and high voltage Coils

Sensors, Relays and Solenoids

We deliver SOLUTIONS.

Why WAI is different

3 Step Method

Product

Understanding the customer product.

Process

Manufacturability study, product optimization, followed by process recommendation.

Machine

Machine selection from various partners that are Leaders in their Industries.

Experience and **expertise** in all **winding technologies**. This, combined with our **knowledge** and **connections** in the industry, save you the time spent looking for the **right machine supplier**.

Comprehensive supplier and equipment **portfolio** from **Leaders** in their Industries.

We represent you, the customer and reach out to our **network of manufacturers**.

We deliver SOLUTIONS.

Our Strengths

Customized Solutions

Equipment designed and tailored for your unique product.

Product development support, optimization of processes and manufacturability study.

Proven and high-end winding technologies.

Accumulated **engineering experience**.

Extensive Portfolio

European manufacturers, leaders in their industries, known for their quality and innovation.

High productivity and efficiency.

Flexible motor and coil winding machines and systems, assembly automation, finishing systems, wire processing machines.

Personalized Services

Consulting and **assistance** end-to-end.

Start to finish project management, from design phase to installation and SOP at your plant.

Customer intimacy, increased **customer satisfaction**, long-standing customer base.

We deliver SOLUTIONS.

Solutions Provider.

More Options

We have the tools to offer our customers **more options**, more flexibility, more expertise.

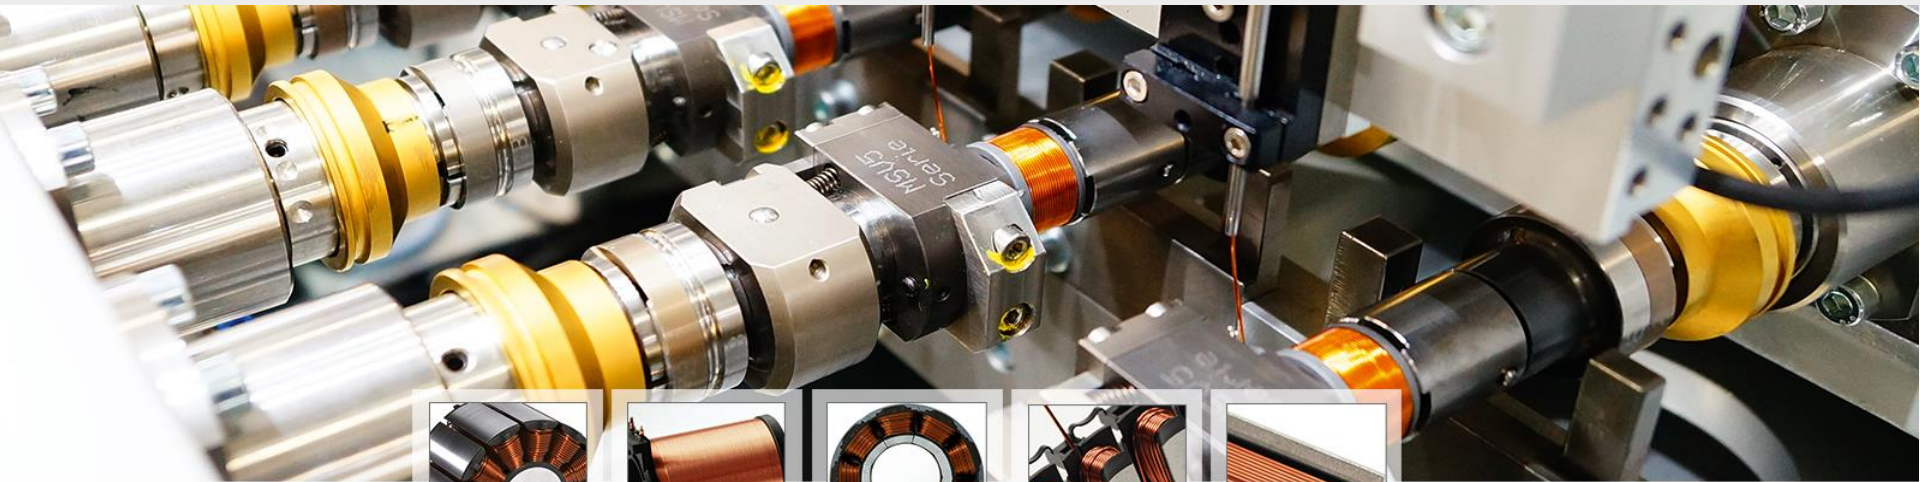

Extensive Portfolio

A diverse and **extensive portfolio**, personalized services.

Our European partners are Leaders in their Industries, excelling in **Product Innovation and Quality**.

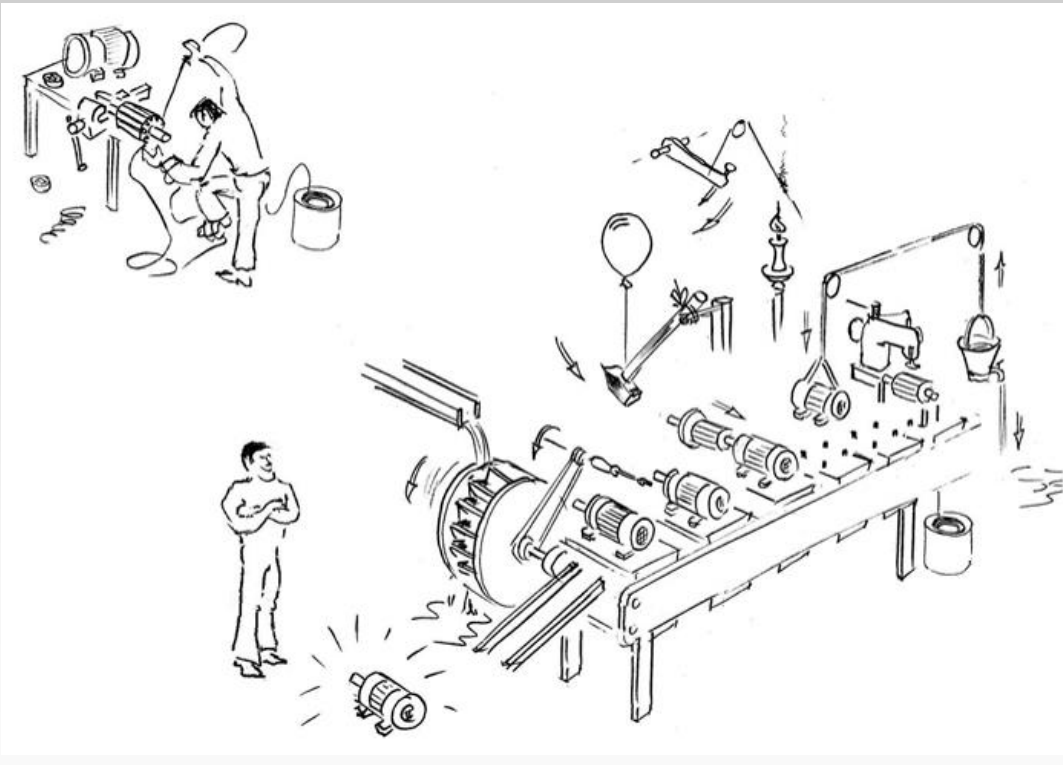

Ideal Partner

Vast experience working in automotive, industrial and appliance industries makes us the **ideal partner for any size project**.

We deliver SOLUTIONS.

Thank you!
